"Archimedes" is a professional company in the field of education .

There is a working 40 years (1973 □ 2013) . There were 29,900 members
28,000 students and 1900 teachers, and other lovers of mathematics.

Extensive activities and excellent results in several sectors:

- Popularization of mathematics and science in general
(84 popular lectures , 215 " mathematical " event , about 25,000 attendees)
- Mathematical School : School constant throughout the year , summer
Winter school , correspondence school, internet school
(39 generations of continuous school - 26.260 students , 114 summer and winter schools
with about 10,300 students , and around 10,000 students in other schools and courses ;
maintenance mately 61,500 hours ; included math lovers of all ages)
- Mathematical Competition : Mathematical tournament , do you think
Mailing Mathematical Olympiad , Mathematical Internet
Olympiad , International Mathematics Tournament of Towns
(74 mathematical tournament team's mathematical experience the Olympics primary and
secondary schools from Serbia 4,399 teams and 19,963 athletes ; 224,300 students
in the competition "mean " for 8 years about 13,000 other participants in mathematics)
- Teacher training : professional forums (Mathematics , Teacher Training , Computer) ,
and other specialized seminars (1,100 seminars and conferences with 1,915 lectures and
over 76,000 teachers present)
- Specialized library
(26,550 books and 5,550 copies of the magazine and on our foreign languages ,
unified reference library that is always at the service of students and teachers)
- Publishing
(Written and published 367 titles of various publications handy for students
and teachers in circulation around 2.43 million units , only in specialized
edition of " the submissions young mathematicians " - 167 thematic brochures)

Holders of awards and other awards in math competitions of all kinds and levels (including international) are primarily "Arhimedesovci." In "Archimedes" taught mathematical horizons broadened and many who are now famous names in the field of mathematics and engineering disciplines, and many are studying or working at prestigious foreign universities and institutes.

Welcome to "Archimedes"!

1. october – Day of "Archimedes"

Satatus as of 31.08.2013.
